

Lantech Communications Inc is successfully deploying FX-4000M, a 4-slot chassis SNMP L2 switch with high density 100M fiber optic connection and with Gigabit uplink, to connect with 400pcs of IP CAM in the town of DoNan in middle of Taiwan. The 400pcs of IP CAMs are connected with Single mode 30KM fiber through CM-011-SC/ST converters back to FX-4000M. Mr. Kou of K Company stated: "Thanks for Lantech FX-4000M solution so that we can plan this straight forward network for all the IP-CAMs to save cost and it is easy to manage all the IP CAM devices across the town". Here is the network architecture:
